RII20520 Certificate II in Resource Processing

Enrolling in the Certificate II in Resource Processing you develop the knowledge and skills to work in the resource processing industry and processing plants. This course teaches the individual skills such as performing routine, operational tasks and applying fundamental operational knowledge to their tasks. This training joins practical experience at work with structured training and as it is delivered on the job, there is no requirement for you to leave work for off-the-job training. CTS can adjust the training to individual needs and workplace. We only offer this course if you are currently employed in the resource processing industry.

Course Details and Duration

Participants must have access to specified equipment in order to enrol in this qualification. Delivered via flexible learning on the job with 10 units for completion.

Up to 36 months for a traineeship.

Resource Processing level 2 traineeships available for new workers.

CTS only offer this qualification to candidates who are currently working in the resource processing sector.

Methods of Delivery

Complete all units via a New Worker traineeship. Complete all units via fee for service in the workplace. Recognition of Prior Learning (RPL).

Language, Literacy, Numeracy and Digital Skills (LLND)

Students must have sufficient language, literacy and numeracy and digital (LLND) skills to be able to read, write, speak, listen, complete calculations and use digital technology at an appropriate level based on the course requirements.

Where LLND is determined to be less than the standard requirement, students (and where applicable, employers) are notified of the LLND requirement needed to be addressed, prior to commencement of training and assessment program.
